

PART – A
(2003 – 2004)

Introduction:

Educate a boy and you educate an individual, educate a girl and you educate a family.

With this motto the founder members of the Marathwada legal and general education society established this motto, college only for women. The main goal and mission of our college is to promote education after matriculation for women / girls specially for socially and economically backward class of society and to empower them and to develop their personality through value based education.

In the academic year, the peer committee from NAAC visited the college on 6th and 7th August 2003. In the self study report of the NAAC each department gave its future plans to be implemented in the duration of the forthcoming five years.

After the visit of the peer committee from the NAAC in August 2003 and with the vivid orientation and aim of quality enhancement. Each department in the college prepared a plan on which they had to act upon in this academic year. Each of departments tried their level best to implement each and every aspect of their planning and most of the times they achieved grand success in implementing their programs.

As per suggested by NAAC Committee the teaching should be more research oriented and the activities should be in that direction, so all the departments conducted seminars and group discussions within the college itself.

The teachers and the students from Marathi department participated in a national mega event for three days of Akhil Bhartiya Marathi Sammelan held on 10th, 11th and 12th of January 2004. They were able to listen to the great Marathi Scholars and eminent orators from the literary field and were able to see the enormous range of books, journals and magazines in the book exhibition.

Translation is an important part of modern cross culture studies, with this view in mind the English department with collaboration with the department of Marathi and Hindi formed a translators club where students were encouraged to translate literacy and non literacy material from English to other languages and vice-versa. Many students became members of the translators club, the translators club was a great success.

The departments of Home science implemented Learn and earn schemes for the needy students. Students stitched aprons and prepared food products and marketed them. This proved very beneficial to the students.

The action plan and outcome achieved by the end of the academic year.

The plan of the action undertaken and the outcome achieved through various programmes by the end of the academic year 2003-04.
